MANAGING CONTRACTORS

Duration

1 Day

What is it?

Clients employing external contractors to carry out construction work on their premises retain certain responsibilities for elements of health & safety management under current legislation.

This practical course highlights the responsibilities of those managing contractors and provides useful guidance on methods of complying with them.

Who should attend?

This course is suitable for anyone involved in the selection, procurement, management or control of external contractors.

About this course.

- Introduction and overview to managing contractors
- Relevant legislation and best practice
- Competency and procurement of Contractors
- Control & Monitoring of Contractors
- Post project reviews
- Reviewing Contractors Risk Assessment & Method Statements
- Permits to Work
- Accident & emergency procedures
- Overview of CDM Regulations 2015

How is it delivered?

The course is delivered using a mixture of presentations, group discussion and workshop style exercises. The content can be tailored to suit the specific needs of the audience.
