

Professional Review

Remote Mentoring

What Is It?

The Professional Review is the final stage in gaining the CIOB Chartered qualification. Successful candidates are entitled to use the designation MCIOB and the title Chartered Construction Manager.

Who Will Be Mentoring Me?

Candidates will be allocated one of our Professional Review Assessors. For further details please see our website or our Company Profile.

Who Is Eligible?

To be eligible candidates must have met the CIOB academic and experience requirements. Training LMS can assist with this at an early stage to confirm your eligibility. Qualifications can include an honours degree, relevant S/NVQ, and the CIOB's Chartered Membership Programme.

What Is Involved?

The Professional Review involves the submission of an experience and competence report complete with supporting documentation.

How Is It Delivered?

Candidates are assisted via video conference tutorials and online webinars.

After an introductory chat with your tutor you will be directed to watch a series of short video presentations about each of the competencies. When you have completed three competencies you submit them for a review by the tutor who will give you both written feedback and discuss with you via a tutorial.

This process is repeated until you have completed the entire form and documentation.

What Happens After the Workshop?

The candidate then submits everything to a TLMS accredited assessor who assesses the application and makes a recommendation to CIOB to become a chartered member, when the required standard has been met.
